2. Board Certified in Anesthesiology, Tabriz University of Medical Science, Tabriz, Iran, 2014.
3. General Practice, Islamic Azad University. Tabriz, Iran, 2008.

Position:

1. Assistant professor of Anesthesiology, Department of Anesthesiology, Tabriz University of Medical Sciences, Tabriz, Iran, June 2017 up to now.
2. Vice of education, Department of Anesthesiology, Faculty of Paramedics, Tabriz University of Medical Sciences.
3. Vice of education, Department of Anesthesiology of Alzahra Hospital.
4. Hemovigilance physician of Alzahra Hospital.

Membership:

1. Iranian Medical Council
2. Iranian Society of Anesthesiologists

Teaching Experiences:

1. Anesthesiology residents, Faculty of Medicine, Tabriz University of Medical Sciences, Iran.
2. Airway management workshop in skill lab for new entrance residents, Faculty of Medicine, Tabriz University of Medical Sciences, Tabriz. Iran.
3. Airway management workshop in skill lab for medical students, Faculty of Medicine, Tabriz University of Medical Sciences, Tabriz. Iran.
4. Medical students, Faculty of Medicine, Tabriz University of Medical Sciences, Tabriz, Iran.
5. Anesthesiology students, Faculty of Paramedics, Tabriz University of Medical Sciences.
6. Obstetric Anesthesia and Labor Analgesia, Faculty of Nursing-Midwifery, Tabriz University of Medical Sciences.

Thesis in process:

Supervisor for MD degree thesis as below:

1. A comparison of the effect of Ringer Lactate versus sodium chloride 0.9% on maternal and neonatal acid- base state in elective cesarean delivery
2. Effect of prophylactic intravenous ephedrine on fetal heart rate in emergency cesarean delivery due to fetal bradycardia
3. Comparison of Pendant versus Traditional Sitting Position for success rate of spinal anesthesia with sprotte needle on obese partiurents undergoing cesarean delivery

4. Comparing the changes in hemodynamic and respiratory parameters in two methods of spinal anesthesia versus general anesthesia in diagnostic gynecologic laparoscopy
5. Advanced Gynecologic Laparoscopic Surgeries under Spinal Anesthesia Compared with General Anesthesia

Advisor for MD degree thesis as below:

1. Effect of Infusion of Oxytocin and Calcium chloride Combination on Blood loss during Abdominal Myomectomy
2. Use of Squinting Position for Facilitating of Spinal Block Performance in Patients undergoing Cesarean Delivery
3. Effect of Pre-loading of Colloid-Crystalloid Combination on Maternal Hemodynamic Status Following Spinal Anesthesia for Cesarean Delivery
4. Predictive Value of Airway Preoperative Examination in Recognition of Difficult Intubation in Diabetic Patients undergoing Gynecologic Surgery
5. Evaluation of analgesic quality and patients satisfaction of pregnant women under controlled intravenous analgesia with remifentanil and comparing it with patient controlled epidural analgesia in labor at Tabriz Alzahra hospital
6. Relationship between abdominal circumference and body mass index (BMI) with neural block level in pregnant women under cesarean section with spinal anesthesia
7. The effect of preoperative intravenous ondansetron for prevention of postoperative shivering in patients undergoing gynecologic surgeries with remifentanil-propofol anesthesia

8. Comparison of Premedication with Oral Clonidine and Infusion of Dexmedetomidin on Perioperative Hemodynamic Responses and Analgesic requirements Post Gynecologic Laparoscopic Surgeries
9. Comparison of intravenous administration of ondansetron versus ephedrine for prevention of spinal anesthesia-induced hypotension in caesarean section
10. Effect of Oxytocin Infusion on Irrigation Fluid Absorption during Hysteroscopic Myomectomy
